THE ORIGINAL QUARTZ

A product designed by **COSENTINO**

## LINE COLOUR SERIES

ECO Line Colour Series is part of our quest for sustainability. We gather the waste materials that we are all surrounded by to create a product with a composition of 50% recycled materials. Glass, porcelain, vitrified ash and even water are reused to breathe new life into something that had previously expired.

# SUEDE

## Silestone® Reinvents The Touch of your Worktop with Suede

The new extra matt finish of Silestone® enhances work surfaces thanks to its soft velvety texture which is both pleasing to the eye, and hand. Suede is a new Silestone® sensation that offers something for all our senses due to its revolutionary texture, never before seen in quartz surfaces.

The new Suede finish is launched to provide intense colour and high performance against stains and marks. Additionally, its exclusive treatment offers the highest technological performance.

Suede is launched in more than 40 Silestone® colours.

Natural Inspiration

# Integrity

---

## The Silestone® Sinks. Integration without joints.

---

A solution for those who want the best from their kitchen, the Integrity Sink combines all the advantages of Silestone® in a new and revolutionary product. It completes the cycle of perfection that the kitchen needs and it harmonizes every aspect.

Thanks to the 'one piece only' effect, the uniformity is obvious. Worktop and sink are joined in design and they are perfectly combined in order to prevent any disjointed areas.

And now, also available: **Integrity DUE**

**In One  
Piece**

---

**ONE is the model that defines the concept of Integrity.** A single sink, in one piece, measuring 41 x 51 x 15,5 cm., ONE is 1, with its curved outline, the perfect choice for lovers of fluid design and originality.

**Straight  
Lines**

---

**DUE is available in two sizes: 37x34x15.5, ideal for a double sink and 37x51x15.5 for a single sink, it is characterised by its straight lines.**

The perfect choice for those who see the simplicity of straight lines as the mark of style and beauty.

## Advantages of Silestone®

Silestone® is a natural quartz surface developed and created to decorate today's kitchens and bathrooms in a range of attractive quartz colours, extraordinary quartz textures, and top-quality performance. It is the only one with a bacteriostatic protection for worktops that guarantees maximum hygiene on its surfaces.

### Resistant to Stains

Silestone® is a quartz surface that is highly resistant to staining from coffee, wine, lemon juice, olive oil, vinegar, make-up and many other everyday products.

### Resistant to Acids

Quartz is one of the strongest minerals known to man. This makes our products extremely durable, with a high level of resistance to external aggressors.

### Resistant to Knocks

The high level of resistance of Silestone® quartz worktops to knocks, far surpasses that of other products with similar applications (granite, solid surfaces, etc). This resistance and durability provides peace of mind in the kitchen.

### Resistant to Scratching

Quartz has a hardness of 7 in the Mohs hardness scale (diamond is number 10). Therefore, whereas with the majority of other worktops, such as those made of granite or laminate, which can get scratched, with Silestone® no mark is left. Silestone® is highly resistant but should not be treated with reckless force, care needs to be taken with knife blades.

## Bacteriostatic Protection

---

Silestone® is the only surfaces brand that includes an active hygiene system in its composition.

We achieve an effective protection that stops the spreads of a wide range of bacteria. This way, the Silestone® kitchen and bathroom worktops provide the added value of security and piece of mind for your home.

---

\*This product does not protect the user at all from any illness caused by bacteria. For this reason, a good cleaning after using the product is always needed.

LINE COLOUR SERIES

---

## A Colour Series Made From Recycled Materials

---

The new ECO Line Colour Series is an innovative colours collection created from recycled materials until its 50%:

- ▶ Porcelain from tiles, sinks, toilets, and other similar products.
- ▶ Glass, windows, containers and glassware.
- ▶ Mirrors from dwellings, buildings and factories.
- ▶ Earthenware from reclaimed tiles.
- ▶ Vitrified ash and waste generated by blast furnaces and power generating processes.

Even 94% of the water used in its manufacturing process is re-used.

New colours that embrace sustainability, design and quality, they have produced a new category of recycled surfaces. These are an ecological alternative to similar surfaces available for construction and decoration.

Colours from ECO Line Colour Series have been created by a comprehensive research and development project carried out by the multinational company which has reinvested a major part of its annual income in promoting new technologies to create this state-of-the-art product.

All the manufacturing processes comply with high environmental standards; such as the Cradle to Cradle certification, that not only certify the product itself, but also everything involved in the production process.

# Large Sized Bathrooms

Silestone® re-invents the bathroom space with a concept of 'Tailor-Made' Formats for large areas.

Any element of architecture becomes an opportunity which gives us limitless aesthetic possibilities. The material can be arranged to compliment the space, rather than viceversa.

Silestone® makes it possible to design almost all elements of the bathroom using the same stunning material – creating a harmonious space with stunning results.

# Silestone® Celebrates its 25<sup>th</sup> Anniversary With an Extension of its Warranty to 25 Years

The unique brand that gives you  
a certified warranty.

Only the world's leading quartz surface  
manufacturer, one who offers unique  
antibacterial protection as standard, could  
exceed itself once again by providing  
a 25 years warranty for all Silestone®  
quartz surfaces. Demand a genuine  
Silestone® worktop. Reject all imitations.

*Rafa Nadal* & Cosentino

# Silestone Premium + More Than a Symbol

Above all, Silestone® means capability, initiative, consistency, responsibility, development, experience... it is all this and much more.

It is a set of advantages that have made Silestone progressive brand, adapting the latest technologies in every way and for everyone.

It is a journey towards the future that we began many years ago, and which has made us an icon in constant re-evolution.

## Colours & Textures

With more than 60 colours and three textures to combine: polished, matt or rough – the possibilities are endless. From the most modern designs to the most traditional, any idea can be brought to life.

## After-Sales Service

We place special emphasis on our after-sales service, as it is the most honest and effective means of providing greater added-value to our products. Our users can understand why the leader is always the first to evolve.

## Strength

After diamond and ruby, quartz is the hardest mineral known to man. This makes our products long-lasting and highly resistant to external aggressions.

## Formats

We manufacture 3 thicknesses – 1.2cm, 2cm and 3cm – and two slab formats – 304cm x 138cm (Standard) and 325cm x 157cm (Jumbo – in limited colours). This enables us to offer larger sizes than anyone else with fewer joints.

## Variety

Our team of expert "quartz hunters" travel the world to find and choose different quartz varieties for the constant development of new lines to match the latest in interior design trends.

## Brand

Everyone wants to be called Silestone® to take advantage of our efforts and market leadership. But there is only one brand, the authentic and original Silestone® by Cosentino®.

## Bacteriostatic Protection

This property ensures that bacteria do not proliferate on the entire surface including edges and grooves, providing active protection for the material in any of its applications. It is based on the use of latest generation silver. Check for colours availability.

## Distribution

Reaching the entire world is becoming a reality. This is due to the huge manufacturing capacity of Cosentino® with 11 manufacturing lines and its network of Centers and distributors all over the world.

## Sustainability

We are firmly committed to forging a better world through sustainable architecture and construction by providing high value products that improve energy efficiency without compromising the beauty of design.

# Certifications

## Greenguard

Silestone® is internationally certified to guarantee maximum hygiene and environmental protection.

## NSF

This certification assures the low emissions of the chemical compounds to the air.

## LGA

It assures the efficiency of the use of water systems and the control of environmental risks.
